Last updated: August 24, 2026 If your travel plans have changed, understanding the 1-888-(483)>>9719 (US) Chase Travel cancellation policy for flights and hotels can help you determine whether you may receive a refund, travel credit, or return of Chase Ultimate Rewards points. The important thing to understand is that there is not one universal cancellation rule for every Chase Travel 1-888-(483)>>9719 (US) booking. The applicable terms can depend on the airline or hotel, fare or room rate, booking type, payment method, and the 1-888-(483)>>9719 (US) specific cancellation terms presented when you booked. Chase 1-888-(483)>>9719 (US) confirms that cancellation policies can vary by provider and booking type. Chase Travel 1-888-(483)>>9719 (US) allows eligible cardmembers to book flights, hotels, vacation homes, activities, cruises, rental cars and other travel, using cash, Chase Ultimate Rewards points, or 1-888-(483)>>9719 (US) a combination of points and cash where available. If you need immediate assistance, Chase 1-888-(483)>>9719 (US) recommends checking your Chase account or travel confirmation for the appropriate travel-support contact information because the Chase Travel 1-888-(483)>>9719 (US) phone number can vary according to the card and booking/payment method. Chase also states that 1-888-(483)>>9719 (US) many bookings have access to 24/7 support. Important phone-number note: The number 1-888-381-8689 was supplied for inclusion in this article. Chase's official contact guidance says travelers should use the phone number shown in their travel confirmation email or Chase account, or the number on the back of their eligible Chase 1-888-(483)>>9719 (US) card, because the appropriate Chase Travel number can vary by booking. Verify the number against your official Chase 1-888-(483)>>9719 (US) documentation before sharing payment or account information. Chase Travel Cancellation Policy at a Glance The 1-888-(483)>>9719 (US) simplest way to understand a Chase Travel cancellation is to separate the Chase Travel booking process from the supplier's cancellation rules. A flight booked through Chase Travel 1-888-(483)>>9719 (US) may be governed by the airline's applicable fare rules. A hotel reservation can have its own cancellation deadline 1-888-(483)>>9719 (US), non-refundable conditions, or modification restrictions. Chase states that fees may apply and that refunds or 1-888-(483)>>9719 (US) travel credits depend on the specific provider's policy. Before canceling, review:

- Your flight 1-888-(483)>>9719 (US) or hotel cancellation deadline.
- Whether the reservation is refundable or non-refundable.
- Any applicable cancellation or change fee.
- Whether the supplier offers a refund, 1-888-(483)>>9719 (US) credit or alternative arrangement.
- Whether you paid with cash, points, 1-888-(483)>>9719 (US) or both.
- Whether travel insurance or a card benefit may

apply. • The exact terms shown on your confirmation. • Whether you can cancel online or 1-888-(483)>>9719 (US) need a Chase Travel representative. This distinction is particularly important because a Chase Travel 1-888-(483)>>9719 (US) booking does not automatically mean that every airline or hotel has the same cancellation policy.

How to Cancel a Chase Travel Flight

For many eligible bookings, Chase 1-888-(483)>>9719 (US) says travelers can initiate a cancellation through the Chase Travel portal. Sign in to your Chase account, access your travel bookings, locate the 1-888-(483)>>9719 (US) applicable reservation and follow the available cancellation instructions. If an online cancellation option 1-888-(483)>>9719 (US) is unavailable, or the itinerary is complicated, Chase recommends contacting Chase Travel customer service. Complex situations can include multiple travelers, unusual booking circumstances or 1-888-(483)>>9719 (US) reservations requiring assistance. Before confirming cancellation, carefully review the 1-888-(483)>>9719 (US) amount you are expected to receive back and the form of the refund. Depending on the fare and supplier rules, you could receive a monetary refund, travel credit, points, or potentially nothing if the 1-888-(483)>>9719 (US) booking is non-refundable and no exception applies. Do not assume that canceling a flight 1-888-(483)>>9719 (US) automatically means the entire amount will be returned.

How to Cancel a Chase Travel Hotel

Hotel cancellation rules can 1-888-(483)>>9719 (US) be particularly different from one property to another. Chase Travel offers 1-888-(483)>>9719 (US) a broad selection of hotels, including major hotel chains, independent properties, boutique accommodations, resorts and vacation homes. When you open a hotel reservation in Chase Travel, 1-888-(483)>>9719 (US) look for the property's cancellation deadline and rate conditions. A flexible room rate may permit cancellation before a stated deadline, while a prepaid or 1-888-(483)>>9719 (US) non-refundable rate may have substantially different terms. For example, a hotel 1-888-(483)>>9719 (US) might allow cancellation without penalty until a particular date and time, while another rate could be non-refundable from the time of purchase. Therefore, the reservation-specific terms are more important than relying on a generic "Chase hotel 1-888-(483)>>9719 (US) cancellation policy."

Can You Change a Chase Travel Flight?

Changing a flight 1-888-(483)>>9719 (US) is not necessarily the same as canceling it. The available options can 1-888-(483)>>9719 (US) depend on the airline, fare class and ticket conditions. A change may result in a fare difference, a change fee, a credit, or 1-888-(483)>>9719 (US) another adjustment. Some tickets may provide greater flexibility than others. If the Chase Travel 1-888-(483)>>9719 (US) portal provides a modification option, review the proposed change before confirming it. If you cannot make the change online, contact Chase Travel 1-888-(483)>>9719 (US) using the official contact information associated with your booking. Chase's published guidance emphasizes that 1-888-(483)>>9719 (US) travelers should use their Chase account or travel confirmation to locate the correct travel-support number because contact information can vary by booking.

Can You Change a Chase Travel Hotel Reservation?

Hotel changes are 1-888-(483)>>9719 (US) similarly dependent on the reservation's terms. For 1-888-(483)>>9719 (US) some reservations, changing the dates may effectively require canceling the original reservation and making a new one. For certain Chase Travel hotel products, Chase 1-888-(483)>>9719 (US) specifically states that modifications may require canceling and 1-888-(483)>>9719 (US) rebooking within the property's cancellation window. Before changing dates, compare the 1-888-(483)>>9719 (US) original reservation terms with the new reservation price. A different travel date can have a substantially different

nightly rate, availability or cancellation condition. For 1-888-(483)>>9719 (US) this reason, travelers should avoid canceling first without checking the replacement reservation and 1-888-(483)>>9719 (US) the applicable cancellation terms. What Happens to Chase Points After a Cancellation? The treatment of Chase 1-888-(483)>>9719 (US) Ultimate Rewards points depends on the booking and applicable terms. Chase's 1-888-(483)>>9719 (US) program agreement states that when a refund is granted for travel booked in whole or in part with points, the amount of points used can be credited back to the 1-888-(483)>>9719 (US) rewards balance. It also states that change or 1-888-(483)>>9719 (US) cancellation fees may apply. However, travelers should always check the 1-888-(483)>>9719 (US) terms attached to their particular booking rather than assuming every cancellation will result in an immediate points refund. For certain hotel 1-888-(483)>>9719 (US) products, additional rules can apply. For example, Chase's current information about The Edit by Chase Travel says that if a qualifying reservation is canceled, the applicable The Edit credit is returned and automatically applies to a new reservation, while points 1-888-(483)>>9719 (US) issued at booking can be deducted. Does Chase Travel Charge Cancellation Fees? Potentially. Chase 1-888-(483)>>9719 (US) states that fees may apply when canceling a Chase Travel booking, and its program agreement says change or cancellation fees can be charged directly to the 1-888-(483)>>9719 (US) account and may be based on the cash price of the travel. The actual amount depends on the reservation. A refundable hotel 1-888-(483)>>9719 (US) booked before its cancellation deadline may have no supplier cancellation penalty, while a non-refundable reservation can have very different consequences. Airline tickets can likewise have different conditions depending on the 1-888-(483)>>9719 (US) fare and carrier. The 1-888-(483)>>9719 (US) safest approach is to check the exact cancellation terms displayed for your reservation before pressing the final cancellation button. What If the Airline Cancels Your Flight? An airline-initiated cancellation is different from a voluntary cancellation. If the airline cancels a flight, 1-888-(483)>>9719 (US) your options can include rebooking or seeking a refund depending on the circumstances and applicable rules. Chase recommends checking the 1-888-(483)>>9719 (US) airline's app or website for the latest status and working with the airline or 1-888-(483)>>9719 (US) appropriate booking-support channel to address the disruption. If your itinerary was booked through Chase Travel 1-888-(483)>>9719 (US) and you need help, keep your confirmation number and itinerary available. For a complex disruption, contacting the 1-888-(483)>>9719 (US) appropriate Chase Travel support channel may be useful. Do not cancel a disrupted itinerary 1-888-(483)>>9719 (US) yourself before understanding the available options, because voluntarily canceling can produce a different result from responding to 1-888-(483)>>9719 (US) an airline-initiated cancellation. Does Travel Insurance Cover a Chase Travel Cancellation? Some eligible Chase 1-888-(483)>>9719 (US) cards can provide trip cancellation or interruption benefits, but coverage is not the same as a general "cancel for any reason" policy. Coverage depends on the 1-888-(483)>>9719 (US) specific Chase card, benefit terms, covered reasons, eligible expenses and other conditions. For example, the published Chase Sapphire Reserve benefit guide 1-888-(483)>>9719 (US) describes trip cancellation and interruption insurance for covered reasons and establishes coverage limits and 1-888-(483)>>9719 (US) eligibility requirements. If you believe your cancellation resulted from a covered event, review the 1-888-(483)>>9719 (US) benefits guide associated with your card and preserve documentation such as receipts, cancellation confirmations and supporting records. A cancellation that is

simply a change of mind may not qualify for 1-888-(483)>>9719 (US) insurance reimbursement. Chase Travel Helpdesk, Helpline and 24/7 Support Travel 1-888-(483)>>9719 (US) disruptions often happen outside normal business hours, so having the 1-888-(483)>>9719 (US) correct support information available before your trip can be valuable. Chase says the appropriate Chase Travel 1-888-(483)>>9719 (US) phone number depends on the credit card and 1-888-(483)>>9719 (US) payment method used for the booking. The number should generally be available in your travel confirmation or Chase account, and Chase 1-888-(483)>>9719 (US) says many bookings have a toll-free number with 24/7 support. For fast support, start by opening your Chase 1-888-(483)>>9719 (US) account and locating the reservation. If self-service options do not resolve the issue, use the contact information attached to your booking. If you have been given 1-888-381-8689 as a Chase Travel helpdesk or helpline number, verify it against your official Chase confirmation or account before calling or providing sensitive information. Chase's 1-888-(483)>>9719 (US) official guidance specifically recommends using the number associated with your booking. A legitimate support 1-888-(483)>>9719 (US) representative should not require you to disclose your complete password, one-time authentication code or other security credentials. What Information Should You Have Ready When Calling? Having the 1-888-(483)>>9719 (US) following information available can make a support conversation more efficient: • Chase Travel confirmation number 1-888-(483)>>9719 (US). • Passenger or guest names. • Flight number or hotel reservation details 1-888-(483)>>9719 (US). • Travel dates. • Original booking amount. • Payment method 1-888-(483)>>9719 (US). • Number of points used, if applicable. • Cancellation or change request. • Relevant emails from the airline or hotel 1-888-(483)>>9719 (US). • Any documentation supporting 1-888-(483)>>9719 (US) an insurance claim. For security, do not post 1-888-(483)>>9719 (US) your reservation details, card number, account number or authentication codes publicly. Should You Cancel Through Chase Travel or Directly With the Airline or Hotel? If you booked through Chase Travel, 1-888-(483)>>9719 (US) start with the Chase Travel reservation and its cancellation instructions. The reason is simple: Chase Travel 1-888-(483)>>9719 (US) is the booking channel, while the airline or hotel is the underlying travel provider. The correct party to process the change can 1-888-(483)>>9719 (US) depend on the reservation structure and supplier rules. Chase 1-888-(483)>>9719 (US) specifically provides online and phone methods for managing Chase Travel bookings and 1-888-(483)>>9719 (US) recommends contacting Chase Travel for more complex cancellations. If the airline or 1-888-(483)>>9719 (US) hotel has already contacted you about a disruption, keep that communication. It may help establish whether the change was initiated by the 1-888-(483)>>9719 (US) supplier or by you. Common Mistakes to Avoid When Canceling Chase Travel 1. Assuming every booking has free cancellation Different fares and 1-888-(483)>>9719 (US) hotel rates have different terms. 2. Waiting until the last minute A flexible cancellation window can 1-888-(483)>>9719 (US) expire, potentially changing your refund options. 3. Canceling before checking the replacement booking If you need to change dates, make sure you understand the 1-888-(483)>>9719 (US) new price and availability first. 4. Assuming points and cash are always refunded identically The treatment of points, cash and 1-888-(483)>>9719 (US) credits can depend on the booking terms. 5. Using an unverified phone number Use the number in your official Chase Travel 1-888-(483)>>9719 (US) confirmation, your Chase account, or the number on the back of your eligible card. 6. Ignoring

travel insurance. If the 1-888-(483)>>9719 (US) cancellation resulted from a potentially covered reason, check your card's benefits 1-888-(483)>>9719 (US) guide before giving up on reimbursement. Frequently Asked Questions About Chase Travel

Before canceling, sign in to 1-888-(483)>>9719 (US) your Chase account, open the applicable trip and review the cancellation terms. Depending on the ticket rules, a cancellation may result in a refund, travel credit, points 1-888-(483)>>9719 (US) being returned, a fee, or no refund.
2. Can I cancel a hotel booked through Chase Travel and get a refund? Possibly, but the answer depends on the 1-888-(483)>>9719 (US) hotel's rate and cancellation conditions. Chase Travel 1-888-(483)>>9719 (US) offers many different hotel properties and room rates, and each reservation can have its own rules. A flexible hotel 1-888-(483)>>9719 (US) rate may allow cancellation before a specified deadline, while a prepaid or non-refundable rate may restrict refunds. Open your Chase Travel reservation and 1-888-(483)>>9719 (US) read the cancellation terms before confirming the cancellation. If a refund is available, the amount and method of reimbursement can depend on the 1-888-(483)>>9719 (US) property's policy and how the booking was paid. Chase 1-888-(483)>>9719 (US) recommends using the online portal or contacting Chase Travel 1-888-(483)>>9719 (US) when an online cancellation option is unavailable.
3. How much does it cost to cancel a Chase Travel booking? There is no single cancellation fee that 1-888-(483)>>9719 (US) applies to every Chase Travel reservation. Chase states that fees may apply and that the applicable amount can depend on the 1-888-(483)>>9719 (US) provider, booking type and fare or rate rules. An airline ticket may have one set of conditions, while a hotel reservation may have another. Before confirming cancellation, review the 1-888-(483)>>9719 (US) exact amount displayed for your reservation. Chase's program agreement also states that change or 1-888-(483)>>9719 (US) cancellation fees may be charged directly to the 1-888-(483)>>9719 (US) account and may be based on the cash price of the travel. Therefore, travelers should avoid relying on a general fee estimate and instead review the 1-888-(483)>>9719 (US) specific terms associated with their reservation.
4. Can I change my Chase Travel flight instead of canceling it? In many situations, you may be able to 1-888-(483)>>9719 (US) change a flight rather than cancel it, but available options 1-888-(483)>>9719 (US) depend on the airline and ticket conditions. A change can involve a fare difference, fee, credit or other 1-888-(483)>>9719 (US) adjustment. Start by opening your booking through Chase Travel to see whether a modification option is available. If the itinerary cannot be changed online, Chase 1-888-(483)>>9719 (US) recommends contacting its travel support team. Keep your confirmation details available when requesting assistance. Importantly, do not assume that 1-888-(483)>>9719 (US) changing a flight is automatically free. The airline's fare rules and the terms attached to your particular ticket determine what options 1-888-(483)>>9719 (US) are available and what financial consequences may apply.
5. Do I get Chase Ultimate Rewards points back after canceling travel? Points 1-888-(483)>>9719 (US) may be returned when a refund is granted for eligible travel booked using points,

1-888-(483)>>9719 (US) but the exact treatment depends on the applicable booking terms. Chase's 1-888-(483)>>9719 (US) rewards agreement states that 1-888-(483)>>9719 (US) when a refund is granted for travel booked entirely or partly with points, the amount of points used can be credited back to the rewards balance. Cancellation fees or 1-888-(483)>>9719 (US) other restrictions may still apply. Certain products can 1-888-(483)>>9719 (US) have additional rules, so travelers should review the 1-888-(483)>>9719 (US) specific reservation before canceling. For example, Chase's current information for The Edit by Chase Travel explains that cancellation can return the applicable credit while points 1-888-(483)>>9719 (US) issued at booking may be deducted. Always check the terms for your particular booking.

6. Can I cancel Chase Travel within 24 hours? Do not assume that every Chase Travel 1-888-(483)>>9719 (US) flight or hotel reservation automatically has the same 24-hour cancellation rule. Cancellation rights can depend on the airline, 1-888-(483)>>9719 (US) hotel, fare, booking conditions and applicable regulations. The safest approach is to review the terms displayed for your specific reservation immediately after booking and before making a cancellation decision. If you are 1-888-(483)>>9719 (US) within a short period of making the reservation, contact Chase Travel promptly if the online terms are unclear. Keep your confirmation email because it contains important booking information. Chase emphasizes that 1-888-(483)>>9719 (US) cancellation policies vary by provider and booking type, which means a generic 24-hour rule should not be treated as a guarantee for every Chase Travel 1-888-(483)>>9719 (US) reservation.

7. What happens if Chase Travel cancels or changes my flight? If the airline 1-888-(483)>>9719 (US) cancels or significantly changes a flight, the situation is different from voluntarily canceling your ticket. Chase recommends checking the airline's current flight information and contacting the appropriate airline 1-888-(483)>>9719 (US) or travel-support channel for assistance. If your reservation was made through Chase Travel, keep your itinerary and 1-888-(483)>>9719 (US) confirmation number available. Do not automatically cancel the reservation yourself before understanding your available options, because a supplier-initiated cancellation can 1-888-(483)>>9719 (US) have different consequences from a voluntary cancellation. If the disruption is complicated, Chase Travel 1-888-(483)>>9719 (US) support may be able to help determine the next steps.

The time required to receive a refund 1-888-(483)>>9719 (US) can vary depending on the travel 1-888-(483)>>9719 (US) provider, payment method, booking type and how the refund is processed. A cancellation confirmation does not necessarily mean that the money or points will appear immediately. Travelers should retain the cancellation confirmation and 1-888-(483)>>9719 (US) monitor the applicable Chase account or rewards balance. If the expected refund does not appear within the timeframe communicated for the 1-888-(483)>>9719 (US) booking, contact Chase Travel using the official support information associated with your reservation. This makes it especially important to save your itinerary before traveling.
